

Starless & Still

Mysterious, starless and still - the air hangs in quiet suspense. Soft, shadowed tones hover in the upper register while the LH moves cautiously below as if tracing careful footsteps through the dark. Each phrase lingers, listening, waiting - so play slowly to make the music sound like it's standing still. A secret is about to unfold and only the most attentive detective will hear it coming. What is the darkness hiding?

Soft and very slow ♩ = 52

Susan Griesdale

p

Hold una corda & damper pedals throughout.
